

## NISB Plenary Meeting (NISB-PI03-20081121)

**Venue:** Tinbergenzaal, Trippenhuis, KNAW, Kloveniersburgwal 29, Amsterdam

**Date:** 2008 November 21

### Invitees:

NISB Principal Investigators (51); Senior scientists, postdocs and PhD-students from the 24 NISB Research Groups; NISB Board members (4); Special invitees

### Programme:

09:30h registration, coffee

10:00h **Welcome**

10:10h **Modelling de novo and sprouting of blood vessel growth**  
*Roeland Merks (NISB/CWI)*

10:50h **NISB Think Tank progress reports: topics addressed, developments and aims next 3 months**  
TT5: Time dependence of signalling networks  
*Jan Lankelma (VUA)*

11:10h TT6: Protein-protein networks  
*Ka-Wan Li (VUA)*

11:30h coffee/tea

11:50h **Measuring molecular processes in living cells**  
*Dorus Gadella (UvA)*

12:30h **NISB: the first six months, opportunities and threats**  
*Roel van Driel (NISB)*

12:50h lunch

13:30h **Network evolution**  
*Sander Tans (AMOLF)*

14:10h **Control and regulation of biodegradation of groundwater pollutants in networks of interacting micro-organisms.**  
*Nico van Straalen (VUA)*

14:50h coffee/tea

15:10h **Discussion forum:**  
∞ what are realistic 5 year goals in systems biology and what are 10 year goals?  
∞ what should be the ambition of NISB?  
∞ what do we need for such ambition?

15:50h **The virtual human project**  
*Hans Westerhoff (VUA)*

16:30h **Closing**  
*drinks & NISBits*

The NISB is a collaborative partnership of AMOLF, CWI, UvA and VUA
